EDUCATION

National University - Manila

Bachelor of Science in Computer Engineering

Aug 2022 – Sep 2026

Sampaloc, Manila

RELEVANT COURSEWORK

- Software Engineering
- Data Science
- Artificial Intelligence
- Data Structures and Algorithms
- Data Analytics
- Database Management
- Operating Systems

EXPERIENCE

Internship - 1902 Software Development

April 2026

Software QA Intern

Alabang, Philippines

- Developed and executed automated test scripts for web applications using BugBug and Playwright.
- Performed quality assurance and testing for e-commerce platforms built on Magento, Shopify, and WordPress, including AI-powered plugins and integrations.
- Utilized Git for version control and collaboration within the development and QA workflow.
- Identified, documented, and tracked bugs.
- Collaborated with the team to ensure timely resolution of issues and maintain product quality across multiple environments.

Capstone - Guardian Vision: Gesture-Based Monitoring in Video Surveillance

2025 – 2026

Project Planner - UI/UX Designer - Front-End Developer

Manila, Philippines

- Led project planning by defining milestones, deliverables, and testing phases aligned with incident monitoring and review workflows.
- Developed a monitoring-focused system that detects, timestamps, and stores security-relevant events from video feeds to support incident response and post-incident investigation.
- Helped structure and document event data to ensure clarity and traceability.
- Designed the workflow to simulate alert-driven review, prioritizing significant events over raw continuous data.

PROJECTS

Bana – Bill Splitter Web App | Next.js, TypeScript, Tailwind CSS, Vercel

July 2026

- Developed a responsive web application that streamlines bill splitting by generating individually itemized receipts for group expenses.
- Implemented receipt generation features that produce individually itemized, printable, and shareable summaries for each participant.
- Deployed the application on Vercel with a responsive, user-friendly interface designed for fast and efficient expense tracking.

LakbAI – Travel Planning Mobile App | Figma

October 2025

- Designed structured user flows and interface layouts to ensure clear role-based navigation and logical task progression.
- Documented design decisions and user journey mappings to maintain alignment across development stages.
- Structured user flows for trip planning, destination browsing, and itinerary management.
- Prioritized usability, visual consistency, and accessibility to ensure a smooth user experience.

Beat Detection in Music (Tempo Estimation) Web App | Streamlit, Python

June 2025

- Developed a Streamlit-based web application that analyzes audio signals to detect beats and estimate tempo (BPM)
- Processed time-series audio data to extract meaningful patterns related to rhythm and timing
- Visualized detection results to make signal behavior and outputs easy to interpret.

Wine Quality Classification System | Streamlit, Python

May 2025

- Developed a data-driven classification model to predict wine quality based on physicochemical attributes.
- Performed data preprocessing, feature analysis, and model evaluation to improve classification accuracy
- Documented findings clearly and presented data-driven conclusions.

TECHNICAL SKILLS

Languages: Python, Java, HTML/CSS, JavaScript, TypeScript, SQL

Tools: Microsoft Office Tools, VS Code, Figma, Bugbug, Vercel, Tableau

Technologies/Frameworks: Linux, Git, Electron.js, Playwright, Next.js, Tailwind CSS

LEADERSHIP / EXTRACURRICULAR

BarkStudio

2024 – 2026

Associate Director for Visual and Creatives

National University - Manila

- Led the Visuals and Creatives team by planning deliverables, assigning tasks, and ensuring timely execution under tight event-driven deadlines.
- Produced publication materials for UAAP-related coverage, requiring accuracy, consistency, and rapid turnaround.
- Coordinated with multiple teams to align visual outputs with organizational goals and public-facing communication standards.

CERTIFICATES

CC Certified in Cybersecurity | ISC2

March 2026

AWS Cloud Practitioner Essentials | Amazon Web Services

March 2026

Google AI Professional Certificate | Google

August 2026
